## Adding a Weather Location using inReach SE+ / Explorer+

Administrator - 2018-10-25 - 0 Comments - in How-To

Your inReach device can send a message to request basic, premium, or marine weather forecasts. You can receive weather forecasts for your current location, a waypoint, or GPS coordinates. Weather forecasts incur data usage charges. For more information, go

to: <https://inreach.roadpost.ca/contract-free-inreach-roadpost-plans/>

This article explains how to add a weather location.

1. Select **Weather** and press ✓
2. Select **New Location** and press ✓
3. Select an option:
  - Select **Use My Location** and press ✓
    - Select **Manually Enter Coordinates** and press ✓
      - This option requires you to manually enter location coordinates.
  - Select **Select a Waypoint** and press ✓
    - This option requires you to select a waypoint from a list.
