## Adding Contacts to the inReach SE+ / Explorer+

Administrator - 2018-10-25 - [0 Comments](#) - in [How-To](#)

You can add contacts on your account at [inreach.garmin.com](https://inreach.garmin.com) and sync them to your device. You can also add contacts on the device, but those contacts are not synced with your online account and therefore not backed up.

This article explains how to add contacts to your inReach.

1. Select **Contacts** and press 
2. Select **New Contact** and press 
3. Select any of the contact fields and enter the details.
4. Select **Done** and press  when finished.
