Assigning Profiles to Users & Groups for inReach Enterprise

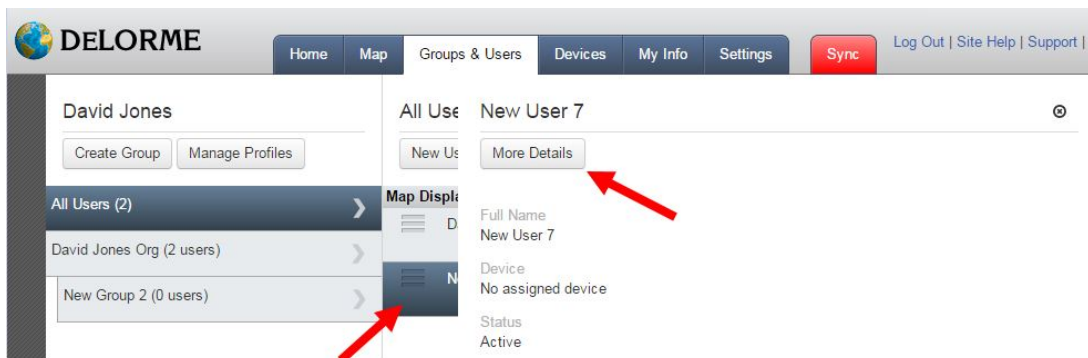

Lu Parente - 2016-01-19 - 0 Comments - in How-To

Assigning Profiles to Users & Groups allows an Administrator to apply custom device settings to a specific User account or Group of users. For assistance with assigning Profiles to Users & Groups using the inReach Enterprise web portal, please follow the instructions below.

1. To assign a profile to a user or group, navigate to the Groups & Users tab.

2. To assign a profile to a user, select the desired user from the list followed by More Details.

2a. Select Edit at the bottom of the page to modify the selected users details.

[Done](#) Edit User: New User 7

- General
- Inbox
- Messages
- Contacts
- History

First Name	New	Profile	Inherit from Parent
Last Name	User 7	Lock	<input type="checkbox"/> (Prevent this user from logging in)
Map Display Name	New User 7		
Map Track Color	<input type="text"/>

3c. Next, you will be prompted to confirm you would like to apply the selected profile to the Group. Select Assign to proceed.

Group Profile Assignment

Are you sure you want to assign this profile to this group? Any sub-groups and/or users within this group will be assigned this profile (if currently without an assigned profile of their own).

3d. Perform a Sync in order for the profile to reflect on the assigned devices.
