Delete Messages From Inbox on Explore Portal

Administrator - 2017-07-05 - [0 Comments](#) - in [How-To](#)

The steps below will allow you to delete messages from a message thread. Please note that you cannot delete entire message threads at once. Lastly, deleting a message from the Explore portal will not remove the message from the inReach device.

1. Login to inreach.garmin.com.
2. Click on the **Inbox** tab.
3. Click on the garbage can beside a message.

4. The message will be delete from the Explore portal.
