Hide or Delete Maps from the Earthmate App for Apple iOS

Administrator - 2017-07-05 - [0 Comments](#) - in [How-To](#)

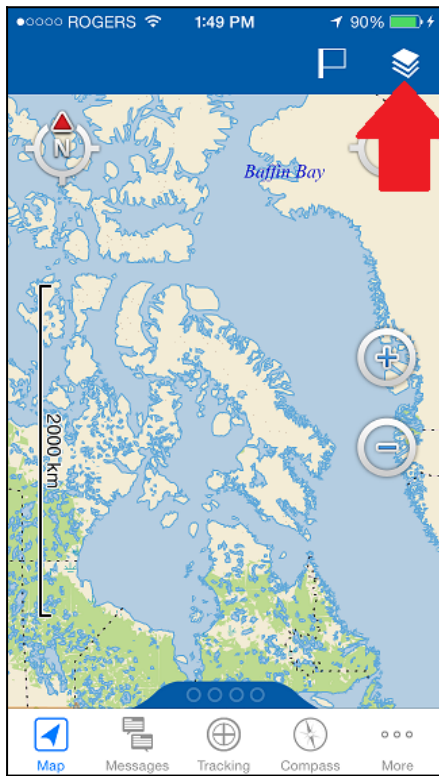

Solution 1: Hide Map Data

To hide map data, but not delete it, do the following:

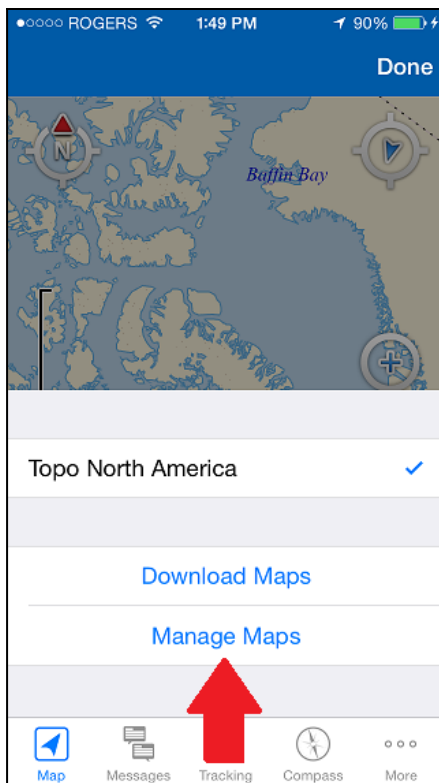

1. Open the Earthmate app .
2. Tap on the **Map** icon.

3. Tap on the map layers icon.

4. Tap on **Manage Maps**.

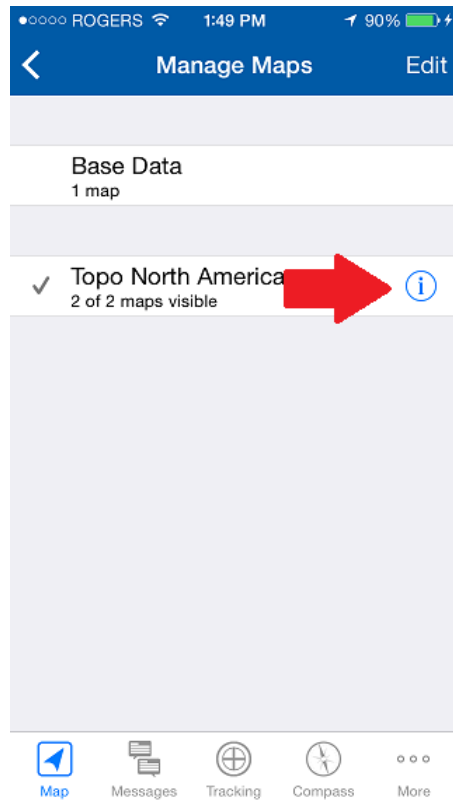

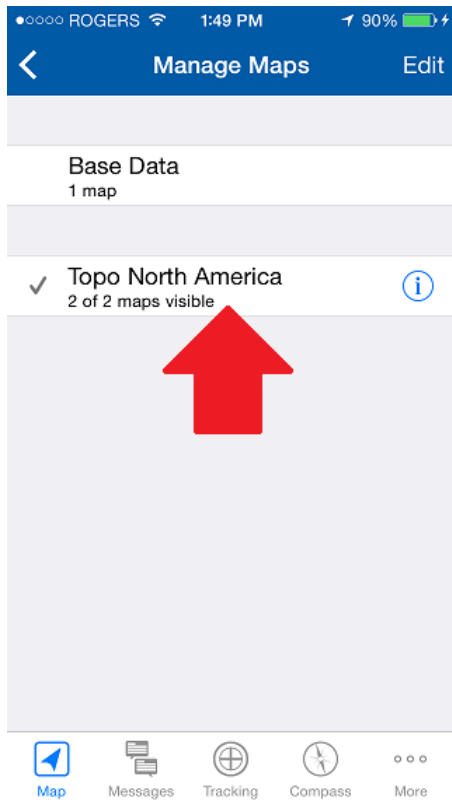

5. From here there are two options:

Option A

Tap on a map pack to remove the checkmark from it, this will hide all maps within the pack.

Option B

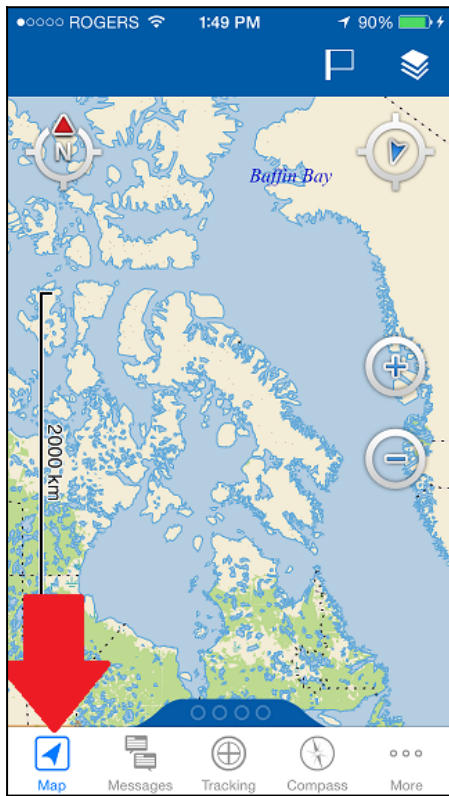

Tap on the blue "i" information icon to hide individual maps within the map pack. Once the map pack is open, tap on the maps to remove the checkmark.

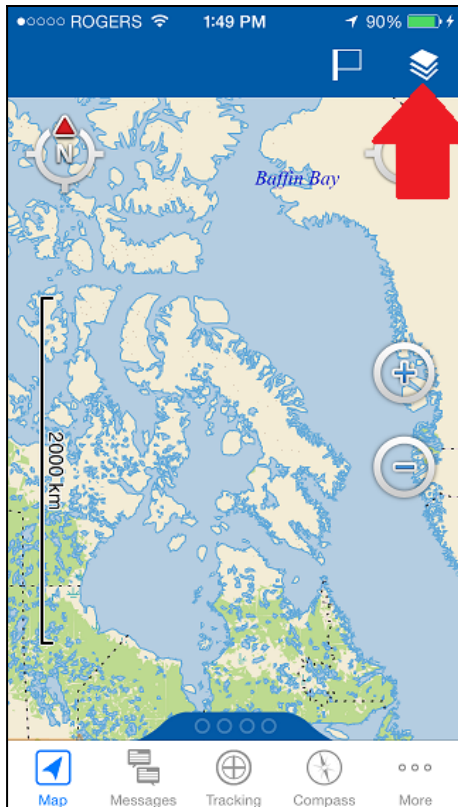

Solution 2: Delete Map Data

Perform the following steps to delete maps from the Earthmate app for Apple iOS:

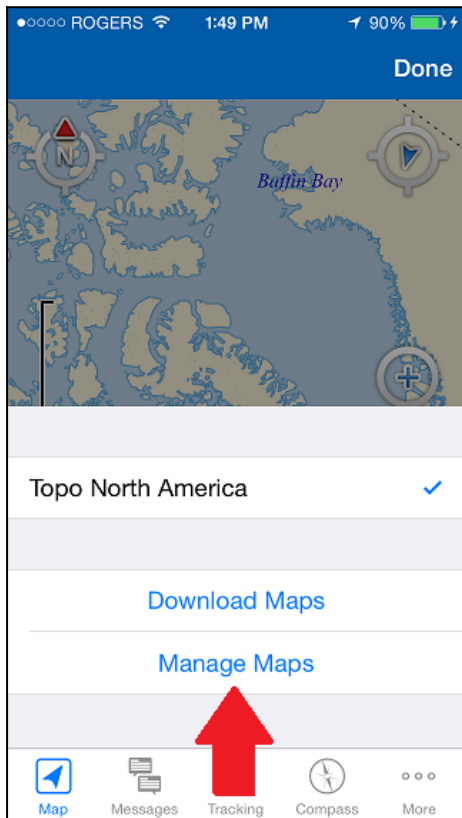

1. Open the Earthmate app .
2. Tap on the **Maps** icon.

3. Tap on the map layers button.

4. Tap on **Manage Maps**.

5. You will have two options:

Option A

Swipe right on the map pack to delete all maps within the pack.

Option B

Tap on the blue "i" information icon to hide individual maps within the map pack. Once the map pack is open, swipe right on the individual maps you want to delete from the map pack.
