Including Location Coordinates in a Message using inReach SE+ / Explorer+

Administrator - 2017-03-09 - 0 Comments - in How-To

If you are sending a message to a recipient who does not have Internet access, you can include your location coordinates in the message. For recipients with Internet access, your location will be included by default.

This article explains how to include location coordinates in a message.

1. Select **Messages** and press 
2. Select **New Message** and press 
3. Select an option:
 - Select **To:** to enter new recipients manually.
 - Select  to select recipients from your contacts list.
4. Enter a message if necessary, this is optional.
5. Select  from the panel on the right to include your location coordinates.
6. Select **Send Message** and press
