inReach SOS Difference (inReach vs SPOT)

Administrator - 2021-12-07 - [0 Comments](#) - in [inReach Devices](#)

The inReach Difference:

SOS

TWO WAY COMMUNICATION

Unlike many other popular rescue and satellite communication devices, such as **Globalstar SPOT™**, **PLBs** and **EPIRBs**, **inReach** allows you to **receive messages** with critical information from our 24/7 search and rescue monitoring partner, **GEOS**.

SPOT ONE-WAY | inReach TWO-WAY
