Linking Facebook and Twitter on the Explore Portal

David Jones - 2017-07-09 - 0 Comments - in Getting Started

In order to post to Facebook and Twitter from your inReach device you must first associate your Facebook and Twitter profile with your inReach account.

Step 1: Link Facebook to the Explore portal

1. Login to inreach.garmin.com.
2. Click on the Social tab.

3. Click on Link Facebook.

Post to your Facebook account from anywhere.

Like [DeLorme inReach!](#)

4. Login to your Facebook account.
5. An app authorization window will appear, click on OK.

DeLorme inReach will receive the following info: your public profile and friend list.

 This does not let the app post to Facebook.

[App Terms](#) · [Privacy policy](#)

Cancel

6. Facebook will then allow you to set visibility of your posts.

DeLorme inReach would like to post to Facebook for you.

Friends Skip OK

- Public
- Friends of friends
- ✓ Friends
- Only Me
- Custom

7. If you operate a Facebook Fan Page you will be asked to approve access as well.

DeLorme inReach would like to manage your Pages.

Skip OK

8. You will be diveted back to the Explore portal website, you Facebook profile will now appear.

Step 2: Link Twitter to the Explore Portal

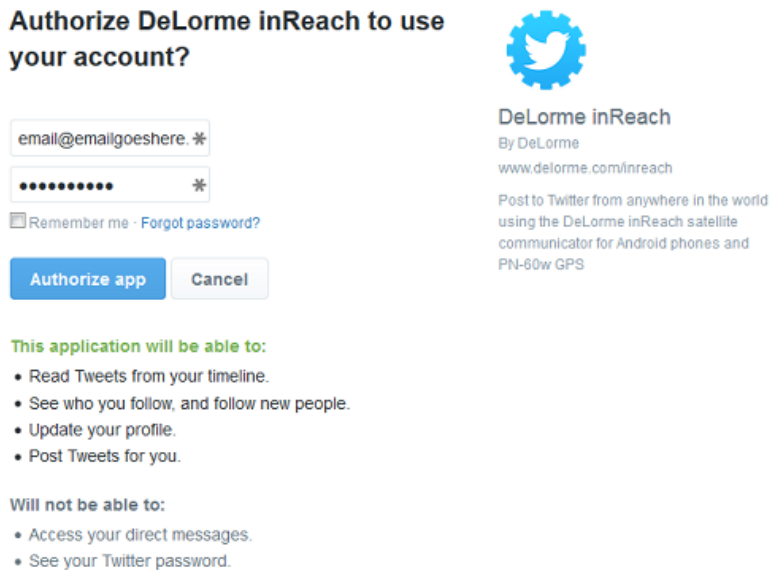

1. Login to inreach.garmin.com.
2. Click on the Social tab.

3. Click on Link Twitter.

4. Twitter will ask for your authorization. Enter your Twitter username and password. Click on the Authorize app button to link Twitter.

5. You will be redirected back to the Social tab. Your Twitter account is now linked.

Step 3: Sync inReach Devices and Earthmate App

You will need to sync your devices. Please see the links below for syncing instructions:

Sync inReach SE, Explorer, Explorer+, and SE+ device:
