Marking a History Point as a Waypoint using inReach SE+ / Explorer+

Administrator - 2017-03-09 - [0 Comments](#) - in [How-To](#)

You can view your history details, the number of messages, preset messages, track points and other events sent from your device each day. Your history details will show you the amount of points sent by date.

This article explains how mark a history point as a waypoint.

1. Select **History** and press 
2. Select a day from the list and press 
3. Select an event record from the list and press 
4. The event record details will be displayed.
5. Press  and the **Details Menu** will be displayed.
6. Select **Mark Waypoint** and press  to set the location as a waypoint.
