## Maximizing Battery Life on inReach SE+ / Explorer+

Administrator - 2017-03-10 - [0 Comments](#) - in [How-To](#)

Use the various settings below to assist with maximizing the battery life on your inReach device.

- ▶ Turn on the **Extended Tracking** setting ([Tracking Settings](#)).
- ▶ Turn on the **Automatic** backlight brightness setting or reduce the backlight timeout ([Display Settings](#)).
- ▶ Reduce the message **Listen Interval** setting ([Messages Settings](#)).
- ▶ Reduce the value of the tracking **Log Interval** and **Send Interval** settings ([Tracking Settings](#)).
- ▶ Turn off **Bluetooth** wireless technology ([Bluetooth Settings](#)).
