With the inReach Explorer you can navigate to the source of an inReach-to-inReach message.

### Navigate to message sender via the Earthmate app for iOS:

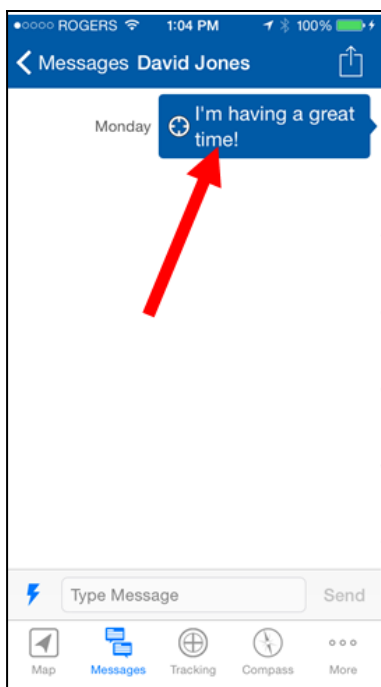

1. Open the Earthmate app .
2. Tap on "Messages."

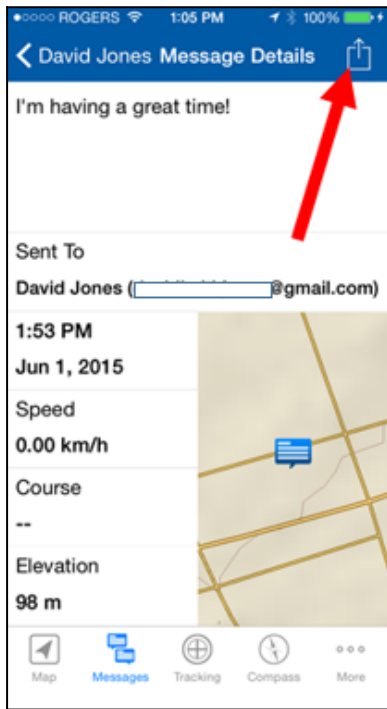

3. Tap on a message thread.

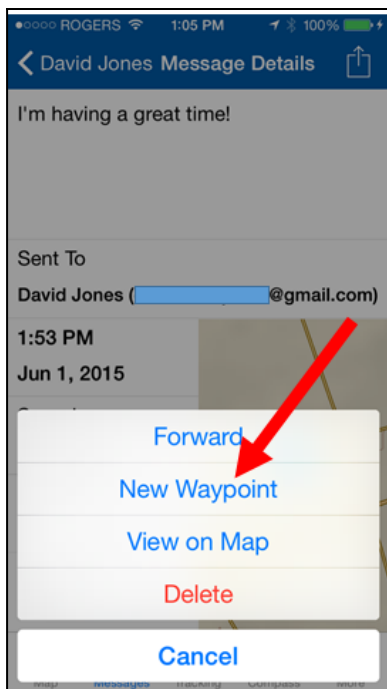

4. Tap on a message within the message thread.

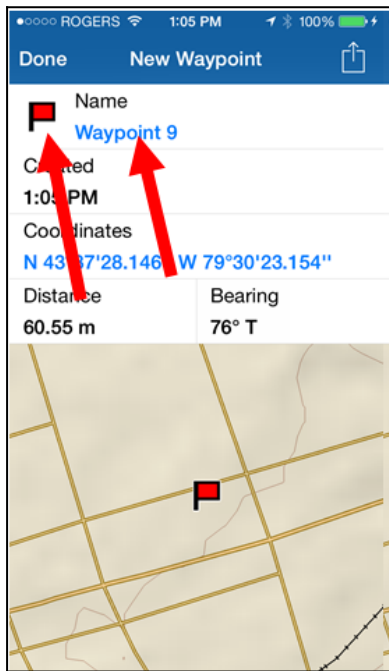

5. Tap on the share button .

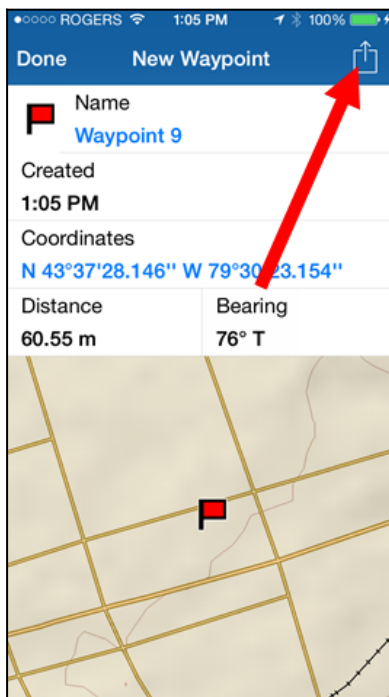

6. Tap on "New Waypoint."

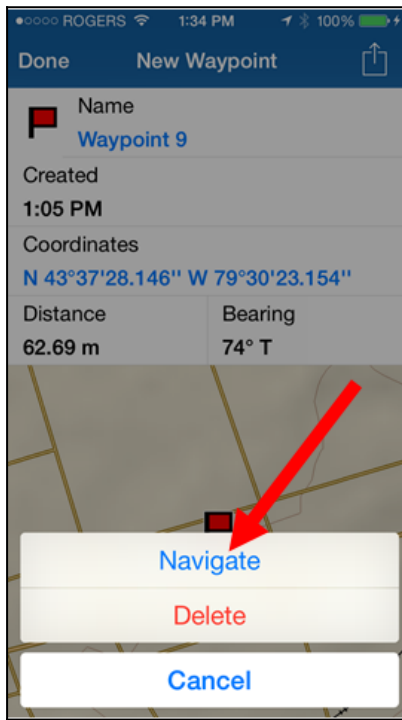

7. Tap on the flag icon to customize the icon and then tap on the name to assign a custom waypoint name.

8. Tap on the share button  again .

9. Tap on "Navigate" to begin routing to the location.

10. Tap stop navigating, tap on the "Stop" icon.
