## Navigate to the Location of a Message with the inReach Explorer

Administrator - 2017-07-05 - 0 Comments - in How-To

### **Navigate to message sender via inReach Explorer device:**

1. From the main screen select **Messages**.
2. Select a message thread.
3. Select a message within the message thread.
4. Scroll down to **Navigate** and then select it.
5. The device will take you to the map and begin navigating you to the source of the message.
