SOS Usage Charges

Administrator - 2017-09-20 - 0 Comments - in Service/Account Management

Usage incurred during an SOS event is treated differently depending on the type of subscription plan.

[Standard Plan](#) Subscribers

For consumer plans, all SOS usage is free of charge and does not draw from the monthly plan allotment.

[Pro Plan](#) Subscribers

For enterprise plans, the SOS usage is rated in bytes, the same as regular usage, and will draw from the monthly plan allotment.
