## Unable to view invoices on the inReach Portal

Administrator - 2017-06-25 - 0 Comments - in Service/Account Management

If you cannot view your invoice on the inReach portal you are most likely running an outdated version of Internet Explorer (version 10 or lower). To update your browser, go

to: <http://windows.microsoft.com/en-CA/internet-explorer/download-ie>

Once your browser is updated you can access your invoice by doing the following:

1. Login to [inreach.garmin.com](http://inreach.garmin.com)
2. Click on the "Account" tab
3. Click on "View Invoices"
4. Your invoices will be displayed
5. Click the "View" button beside the invoice you wish to see
6. A new window or tab will open on your browser with the appropriate invoice
