Updating a Weather Forecast using inReach SE+ / Explorer+

Administrator - 2018-10-25 - [0 Comments](#) - in [How-To](#)

Your inReach device can send a message to request basic, premium, or marine weather forecasts. You can receive weather forecasts for your current location, a waypoint, or GPS coordinates. Weather forecasts incur data usage charges. For more information, go to: <https://inreach.roadpost.ca/contract-free-inreach-roadpost-plans/>

This article explains how to update a weather forecast.

1. Select **Weather** and press ✓
2. Select a location with an outdated weather forecast from the list and press ✓
3. If necessary, change the type weather forecast and select between **Basic** or **Premium** and **Marine**.
4. Select **Update** and press ✓ to update your forecast.
