Viewing & Sharing Your Current Location using inReach SE+ / Explorer+

Administrator - 2017-03-09 - 0 Comments - in How-To

You can view your current location and share it with others.

This article explains how to view and share your current location.

To view and share your current location:

1. Select **Location** and press ✓
2. Your location will be displayed.
3. If you wish to share your location, select **Share Location** and press ✓
4. Select an option:
 - Select **To:** to enter new recipients manually.
 - Select  to select recipients from your contacts list.
5. When finished, select **Send Message** and press ✓
